PEAR SHAPE

Ball Gowns

Those who have a *pear shaped* silhouette may have features such as a *petite or full bust*, *defined waist*, and *fuller hips*.

We love a *ball gown* as it will help further accentuate your waist, and the fullness of the skirt of the gown will balance out your bust which will give you a beautiful hourglass figure!

PETITE + TALL

Fitted and High Necklines

For our *petite or tall brides*, look for gowns that hug the body or silhouettes that follow your natural lines and don't split your shape into two pieces.

Crepe gowns, all over lace and high necklines are just a few of our favorites that will accentuate and highlight your height and make those petite figures appear taller!

HOURGLASS

Mermaid + Fit and Flare

Those who have an *hourglass figure* may have a *fuller bust*, *smaller waist*, and *fuller hips*.

Mermaid and *fit-and-flares* are great styles to show off your figure!
These styles will highlight the smallest point of your waist, hug your hips, and have a gentle flare at the bottom.

THE WINNER FOR ALL..

A-Lines

Everyone has different silhouettes and we love how unique each and every one of our brides are! No matter your shape, an A-Line gown is universally flattering!

The shape of an A-Line gown is fitted at the waist, highlighting your figure, and flows out, providing a bit of volume while not being overpowering to your figure!
